

Docket No. VKSW-1

REMARKS

Claims 1-21 remain in this application. Claims 1-21 have been amended. No new claims have been added. No claims have been deleted.

Applicants acknowledge with appreciation the courtesies extended to the undersigned during the telephone interview of June 2, 2005 during which the typographical errors present in the claims were discussed. Applicants have amended the claims as suggested.

The specification has been amended to correct typographical errors that occurred during final printing of the application. The phrase, "Error! Objects cannot be created from editing field codes.," has been replaced, in each instance with the correct chemical structure. Applicants submit that no new subject matter has been added by way of this amendment. Full support for the added subject matter is found in the priority PCT Application Serial No. PCT/EP02/10206 (PCT Publication No. WO 03/022812) in claim 2 (pages 11-12).

The preamble of claim 1 has been amended to cover a "method of using a compound of the Formula 1 in a process" rather than to claim the "use of a compound of the Formula 1". Claim 1 has also been amended to include the step of the method. Applicants submit that no new matter has been added by way of these amendments. Full support for the added subject matter is found in the specification as filed (page 6, line 26 to page 8, line 16).

The preambles of claims 2-16 have been amended to correct an antecedent basis issue raised by amendment of the preamble of claim 1.

Claim 3, subsections c), d), e) and f), has been amended to replace the phrase "Error! Objects cannot be created from editing field codes.," in each instance, with the correct chemical structure. Full support for the added subject matter is found in the priority PCT Application Serial No. PCT/EP02/10206 (PCT Publication No. WO 03/022812) in claim 2 (pages 11-12).

The preamble of claim 17 has been amended to cover a "method of using a compound of the Formula 1 in a process" rather than to claim the "use of a compound of the Formula 1". Claim 1 has also been amended to include the step of the method. Applicants submit that no new matter has been added by way of these amendments. Full support for the added subject matter is found in the specification as filed (page 6, line 26 to page 8, line 16).

The preamble of claim 18 has been amended to correct an antecedent basis issue raised by amendment of the preamble of claim 17.

Docket No. VKSW-1

The preamble of claim 19 has been amended to cover a "method of using a compound of the Formula 1 in a process" rather than to claim the "use of a compound of the Formula 1". Claim 1 has also been amended to include the step of the method. Applicants submit that no new matter has been added by way of these amendments. Full support for the added subject matter is found in the specification as filed (page 6, line 26 to page 8, line 16).

Claims 20-21 have been amended to correct antecedent basis issues raised by amendment of the preamble of claim 19.

In view of all the foregoing, Applicants respectfully submit that the specification and claims are in proper form for examination.

Respectfully submitted,

Date: 6/3/5
